Loans and Credit Quality

Loans receivable totaled \$132.0 million at March 31, 2022, up \$161,000 from December 31, 2021. Small Business Administration Paycheck Protection Program ("PPP") loan pay-offs totaled \$1.9 million during the first quarter of 2022. At March 31, 2022, the total unpaid principal balance of PPP loans, included in commercial and industrial loans, totaled \$841,000, compared to \$2.8 million at December 31, 2021.

The following table sets forth the composition of the Company's loan portfolio as of the dates indicated.

<i>(Dollars in thousands)</i>	<u>3/31/2022</u>	<u>12/31/2021</u>	<u>Increase (Decrease)</u>

Non-performing assets ("NPAs") totaled \$1.6 million at March 31, 2022, up \$358,000, or 29%, compared to \$1.2 million at December 31, 2021. The ratio of NPAs to total assets was 0.55% at March 31, 2022, compared to 0.43% at December 31, 2021. Nonperforming loans ("NPLs") totaled \$1.3 million at March 31, 2022, up \$378,000 or 42%, compared to December 31, 2021. The ratio of NPLs to total loans was 0.96% at March 31, 2022, compared to 0.68% at December 31, 2021. The increase in NPAs and NPLs was primarily due to an increase in non-accruing one- to four-family residential mortgage loans. The Company recorded net loan charge-offs of \$32,000 during the first quarter of 2022, compared to net loan recoveries of \$4,000 for the fourth quarter of 2021.

The ratio of the allowance for loan losses to total loans was 1.65% at March 31, 2022, compared to 1.73% at December 31, 2021. The decline in the ratio of the allowance for loan losses to total loans primarily reflects continued improvement in our assessment of the impact of the COVID-19 pandemic on our borrowers. The Company recorded a reversal to the allowance for loan losses of \$71,000 during the first quarter of 2022.

Investment Securities

Total investment securities were \$98.1 million at March 31, 2022, down \$3.7 million, or 4%, from December 31, 2021. Net unrealized losses on securities available-for-sale totaled \$5.7 million at March 31, 2022, compared to \$864,000 at December 31, 2021. The increase in unrealized losses on available-for-sale securities related principally to increases in market interest rates for similar securities. For the first quarter of 2022, the average yield on the investment securities portfolio was 1.31%, up 7 basis points from the fourth quarter of 2021.

The following table sets forth the composition of the Company's investment securities portfolio as of the dates indicated.

Deposits

Total deposits were \$183.1 million at March 31, 2022, up \$6.3 million, or 4%, from December 31, 2021, primarily due to increases in NOW accounts (up \$3.6 million, or 10%) and demand deposits (up \$2.8 million, or 9%).

Net Interest Income

Net interest income for the first quarter of 2022 was \$1.8 million, up \$44,000, or 3%, from the fourth quarter of 2021 primarily due to an increase in interest income from investment securities (up \$89,000, or 37%) and a decrease in interest expense on deposits (down \$17,000, or 16%). The impact of the change in income from investment securities and interest expense on deposits was partially offset by a decrease in interest income on loans (down \$58,000, or 4%).

The following table sets forth, for the periods indicated, the Company's total dollar amount of interest income from average interest-earning assets and the resulting yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates, and the net interest margin. Taxable equivalent ("TE") yields have been calculated using a marginal tax rate of 21%. All average balances are based on daily balances.

Non-interest Income

Non-interest income for the first quarter of 2022 was \$197,000, down \$27,000, or 12%, from the fourth quarter of 2021 primarily due to a decline in income from service charges on deposits accounts.

Non-interest Expense

Non-interest expense for the first quarter of 2022 totaled \$2.2 million, down \$12,000, or 1%, compared to the fourth quarter of 2021. Declines across most non-interest expense items were largely offset by increases in franchise and shares tax expense and advertising and marketing expense.

Salaries and employee benefits expense totaled \$1.3 million for the first quarter of 2022, down \$39,000 from the fourth quarter of 2021 primarily due to the absence of severance costs and fewer working days in the first quarter of 2022, partially offset by additional expenses related to our benefit plans.

Advertising and marketing expense totaled \$42,000 for the first quarter of 2022, up \$34,000 from the fourth quarter of 2021 primarily due to the costs incurred for the planned re-branding of the Bank.

Franchise and shares tax expense totaled \$58,000 for the first quarter of 2022. During the fourth quarter of 2021, the Bank converted from the mutual to the stock-form of ownership and established Catalyst Bancorp, Inc. as its holding company. As a result, the Company became subject to franchise tax and the Bank became subject to shares tax for 2022.
